## Become a 2009 Historic Green Supporter

- Generate goodwill and help rebuild a community in need
- Participate in a unique chapter in the history of the Holy Cross Neighborhood and the Lower 9th Ward area of New Orleans
- Help educate the Lower 9th Ward community and volunteers on practical applications of energy savings for low-income residents, through training and hands-on experience
- Provide the community and volunteers the opportunity to learn from sustainability and preservation experts with the Historic Green Lecture Series
- Gain exposure to over 1,500 emerging leaders in the sustainability arena from all over the country

“ The First Annual Historic Green 2008 has provided the right shot in the arm in helping our residents realize that they can have an historic home that is properly weatherized and greened up. They will now save significant money on their energy bills and have a renewed sense of pride in their homes. Thanks to the volunteers from around the country that came to our community ...thanks a billion. ”

*Charles Allen III, Resident and President of the Holy Cross Neighborhood Association*

## 2008 HISTORIC GREEN STATISTICS

Fifteen Days

Seven community education programs featuring Emily Wadhams, National Trust for Historic Preservation, and Rick Fedrizzi, President, CEO & Founding Chairman, U.S. Green Building Council

150 Homes Served

The simple installation of 1,910 CFL bulbs in 79 homes resulted in 853,770 pounds of carbon reduction or saving 540 kWh or \$87,860 to residents (over the lifetime of the bulbs)

Dozens home owner projects, such as home restorations, rain gardens, home deconstructions, weatherization projects and radiant barrier installation, as well as owner-identified home improvement projects

Restored a community playground and garden

Preserved land for residents, by planting trees & plants and clearing overgrown land

Developed a variety of lasting resources for the Lower 9th Ward
